

OPEN ENROLLMENT – January 1, 2026

October 13 – October 31, 2025

Open Enrollment is here! Open Enrollment is your annual opportunity to review and update your benefits for the upcoming year. Any changes you make during this period will take effect on **January 1, 2026**.

Outside of Open Enrollment, benefit changes are only allowed if you experience a **Qualifying Life Event**.

Now is the perfect time to explore your options and make informed choices for yourself and your family. Review the available plans and premium contributions carefully to select the coverage that best supports your needs. Healthcare decisions are some of the most important you'll make to protect your well-being and maintain your quality of life. As you consider your options, think about any life changes over the past year—or those you anticipate in the year ahead. For example:

- Did you get married or welcome a new child?
- Are you or a family member managing a new or ongoing health condition?

If so, it may be time to adjust your benefit elections.
