

## **Southwestern Ohio EPC Automated External Defibrillators (AEDs) Discontinuations and Rebates**

As 2025 comes to an end, we are reaching out to let you know that the charge pak and adult pads for the LP CR Plus AEDs will be discontinued by Stryker beginning February 2026. We believe that many Ohio schools still have these in service and are likely close to, at, or beyond the 8-10 year life expectancy, and if so, there is still a couple of weeks left (ends 12-31-25) to trade up to the LP CR2 AED and receive the \$400 rebate for each LP CR Plus AED. If they are not quite to the 8 -10 year life expectancy, you should get an order in for the charge pak adult pads kit asap, as they are on backorder right now.

We'd also like to remind you to check the manufacturer's date on your AEDs. Many districts purchased their AEDs in 2013 and 2014, bringing them beyond their expected lifespan and well past their 8-year warranty. The label with the date is usually affixed to the bottom of most AEDs. If you need help locating your date label, please contact Doug Huffman at AEDVenture at [sales@aedventure.com](mailto:sales@aedventure.com) or 330-353-8821.

### **Rebates of \$400 (recently up from \$250) are also available for each old LP CR Plus AED (most common in Ohio schools) returned to Stryker after purchase.**

Once your new LP CR 2 AEDs are purchased, AEDVenture will send you a form to complete and submit with your old AEDs. Stryker will then process them and send you \$400 for each LP CR Plus AED submitted. You may send in one old AED for each new LP CR 2 AED purchased.

Since your school is a member of the EPC, the Physio-Control LP CR 2 AED (and all other AEDs listed below) have been pre-bid on your behalf.

### **Current EPC Bid Pricing for AEDs through AEDventure:**
