

THE ORGANWISE GUYS®

A healthy student is a better, more productive student, and with contracted pricing through **Ohio Purchasing Cooperatives**, your school can access the evidence-based [The OrganWise Guys](#) program to improve both health and academic outcomes.

This whole-child, whole-school approach to nutrition and healthy living is a scientifically proven program, proudly offered by The OrganWise Guys Inc., a newly certified **Women-Owned Small Business (WOSB)** through the SBA. It ...

- Improves students' test scores
- Enhances children's health in a statistically significant way
- Aligns with STEM, Health & PE, and state-specific academic standards
- Includes curriculum in both **English and Spanish**
- Incorporates social and emotional health curriculum
- Is flexible, easy to implement, and keeps students on task (great for Specials!)
- Comes with complimentary teacher training!

I would welcome the opportunity to discuss how this program can benefit your school community. [Schedule a 15-minute call at your convenience here.](#)

Thank you for considering this exciting initiative!
