

Teacher Workshops

VIRTUAL AND IN-PERSON* OPTIONS

*In-person workshops to resume pending CDC guidelines for Covid-19

At Dixon Ticonderoga Company, we believe creativity can change the world. We have created unique standards-aligned lesson plans that keep students engaged while providing fresh content for teachers. Our lesson plans continuously evolve and cover a variety of topics from STEAM to SEL, to Social Studies, Visual Art and more.

Art Teacher Workshop

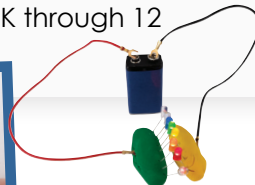

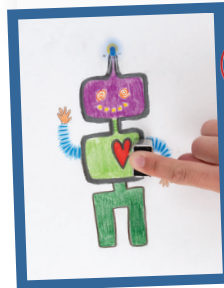

- Experience lesson plans aligned to core standards, National Visual Art, CCSS, NGSS and other rich content areas such as Social Studies, SEL and more
- Lessons can be adapted to grades Pre-K through 12
- Workshops can be tailored to any time frame

Students explore core content through art in our wide selection of lesson plans.

STEAM Workshop

- Spark creativity, inspire achievement, and promote critical thinking
- Integrating art into your content promotes an equitable learning environment, while encouraging students to become active participants in their learning
- Experience lesson plans aligned to core standards, National Visual Art, CCSS, NGSS and other rich content areas such as Social Studies, SEL and more
- Lessons can be adapted to grades Pre-K through 12

In our Graphite Circuits lesson, students create graphite artwork that conducts electricity, lighting up an LED bulb as part of their final artwork.

Art Integration Workshop

- Features our Learn It By Art® Art Integration Math Kits, created for Pre-K to 5th grade classroom teachers and students
- Each kit includes *three lessons*, aligned to the most difficult math domains and multiple core standards for each grade, a content-rich teacher guide, curriculum maps, instructional content, pre- and post-assessments and more
- Each kit also includes *pre-prepped materials for a classroom of 30 students*. Less time prepping, more time teaching!

In one lesson, second grade students use their knowledge of base-ten to create an Alexander Calder-inspired mobile.
