

SMART ROOFING SOLUTIONS

Serving Ohio since 1928, TREMCO has local teams in every corner of the state.

Todd Linklater is your Dayton, Ohio area representative.

Roofing and weatherproofing peace of mind starts with a Total Roof Assessment. Contact me today to learn more about our comprehensive diagnostics tools.

DATA IS POWER!

Looking for budget predictability? Start with accurate data. With the right information, you can eliminate surprises and put control back into your capital planning.

HVAC Restoration

Clean, refinish and upgrade aging air handler units to realize significant capital savings over replacement with the same or better performance than new.

Roof Assessment

Using a combination of thermography, core samples, mapping and analysis helps easily find and fix roofing issues.

TremSource® Leak Management

With the TremSource® leak management program, one call to our 24/7 hotline sends qualified roofing technicians to find and repair roof leaks anywhere at your facility.

Roof Restoration

Fluid-applied roofing products and systems are ideal options for facilities where occupant health, comfort and safety are top priorities.

ONE TOTAL BUILDING ENCLOSURE SYSTEM

Tremco Roofing & Building Maintenance is part of Tremco Construction Products Group. Offering the world's leading construction material brands, Tremco CPG is your single source to keep your facility watertight on all six sides of the building, from the foundation to the roof.
