VOLUNTEER DRUG FREE CLUBS

1/2 the COST
TWICE the SERVICE
No Long Term Contracts

Great Lakes Biomedical would like the opportunity to service your Drug Free Clubs program. This is a great way to continue offering your students a club experience but not have to pay the exorbitant fees of the national franchise companies.

The cost for the 12 panel urine drug screen for your volunteer program is \$35 per student per year

Our price includes initial testing with laboratory and MRO confirmation and random testing of at least 20% of the population per year.

The price of each screen would include:

- **Collection of specimen (That's right. We do the collections for you)**
- Testing of specimen
- MRO Review
- Adulteration testing of specimens with reporting of dilute or invalid specimens
- Drug Free Certificate or Card

While the other organizations initially help you set up the program, they often end up giving you a stack of drug test forms and tell you to try and partner with a hospital or other outside agency to do the collections. It seems like you are doing all the work and they are making a lot of money.

Great Lakes Biomedical has been a pioneer in school drug testing in Ohio and Michigan. We have been involved with schools since 1996 and are servicing about 180 school drug testing programs. We have the ability to tailor a program to fit your needs and your budget.

I would be happy to meet with you to discuss how the program works.

Please give us a call at 419-872-5343.

Sincerely,

Kyle Prueter
