ICE MELT SOLUTIONS

MILLCRAFT

Three Ways to Take on Winter.

Halite Rock Salt | AN6102

$9.00* / 50lb. Bag

A commercial-strength rock salt that provides dependable ice and snow melting for everyday winter conditions.

Key Features & Benefits:

Melts down to +5°F for reliable cold-weather performance

Mixed crystal sizing helps provide both immediate and lasting melting action

No oily residue helps keep treated surfaces cleaner

Melt-a-way Premium Deicer | AN6103

$12.50* / 50lb. Bag

A premium ice-melting blend designed for fast, effective performance, reduced corrosion and damage to surrounding surfaces and vegetation.

Key Features & Benefits:

Works below 0°F with programmed crystals for extended melting power

Corrosion-inhibiting formula helps reduce damage to seasoned concrete, trees, grass and shrubs

Blue, uniform crystals promote even application while helping reduce tracking and slippery residue

MAG Ice Melter | AN6104

$33.00* / 50lb. Bag

A high-performance magnesium chloride ice melter that works quickly in extreme cold while offering a safer choice for people, pets and treated surfaces.

Key Features & Benefits:

Effective down to -13°F for superior performance in extreme cold

Fast-acting formula melted twice as much ice as rock salt within 15 minutes at 21°F in testing

Safer formulation for people, pets, concrete and the environment
