

K-12 Applications: Classrooms, Cafeterias, Technology Centers, Athletics and Student Health Centers

pureAir
ActiveHEPA 
WITH ODOGard®

The new standard in air purification is the innovative pureAir Active HEPA+. utilizing a powerful fusion of active and passive technologies. Backed by an industry-best 10-year warranty, it's the ideal solution for offices. And it's proven to inactivate 99.98% of the virus that causes COVID-19, something important to all of us these days.

Hunts Pathogens
Captures Allergens
Destroys Odors

- Reduce the risk of the spread of COVID-19 and similar epidemics.
- Reduces volatile organic compounds (VOCs), allergens such as pollen and pet dander, and other irritants.
- Improved indoor air quality has been shown to improve cognitive performance and productivity.

pureAir Active HEPA+ Pro

pureAir Active HEPA+ Room

The Greentech difference.

Because passive air purification simply doesn't work well enough on its own, Greentech's technology utilizes a Photocatalytic Oxidation (PCO) process as part of a multi-pronged assault on airborne pollutants, which has proven to be more effective in reducing pathogens from indoor environments. It's the same system used by NASA in the Space Station.

Passive Purification V. Active Purification

Traditional passive air filters do not fully address the needs of indoor spaces. All indoor spaces face common environmental challenges, such as bacteria, viruses, mold, VOCs and odors, allergens, and particulates. Traditional air filters require air to pass through them to be cleaned, and these particles are often too small to be trapped, allowing them to pass freely into your space again.

The Greentech Solution: Active Air Purification

Greentech's technology utilizes a multi-pronged approach combining photocatalytic oxidation, bipolar ionization, and our proprietary coated filtration, resulting in a more effective air purification. Advanced oxidation particles (AOPs) are propelled out into the space to hunt down pollutants and purify the air. These AOPs actively attack allergens and odors caused by bacteria, mold, VOCs and more before the air passes through the filter, providing a more thorough solution.

Perfect Purifiers for Offices

ActiveHEPA+ Pro

Combines active and passive technologies to create a unique air purification solution.

ActiveHEPA+ Room

Combines active and passive technologies to create a unique air purification solution.

pureAir 3000 MERV+ with Ozone

Combines active and passive technologies, with ozone.

pureAir 3000 MERV+ No Ozone

Combines active and passive technologies to create a unique air purification solution, no ozone.

750+Wall Mount

Providing continuous air purification. Perfect for spaces without HVAC duct access.

pureAir SOLO

A sleek, wearable air purifier that repels particles to create a clean breathing space.
